

**INCIDENT MANAGEMENT SITUATION REPORT**  
**SATURDAY, JULY 9, 2005 – 0800 MDT**  
**NATIONAL PREPAREDNESS LEVEL 2**

**CURRENT SITUATION:**

Initial attack activity was light nationally with 117 fires reported. Five new large fires were reported, two each in the Southwest and Southern California Areas, and one in the Rocky Mountain Area. Four large fires were contained, one in the Southwest Area and three in the Southern California Area. Very high to extreme fire indices were reported in Arizona, California, Colorado, Nebraska, New Mexico, Nevada, Oregon, South Dakota, Texas, Utah and Wyoming.

**SOUTHWEST AREA INCIDENTS / LARGE FIRES:**

CAVE CREEK COMPLEX, Tonto National Forest. A Type 2 Incident Management Team (Philbin) is assigned. This complex, comprised of the Lousy, Broad and Cave Creek fires, is six miles northeast of Carefree, AZ in chaparral and grass. Minimal fire activity was observed.

DRAGON COMPLEX, Grand Canyon National Park. A Fire Use Management Team (Clark) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Dragon, Spine, Basin and Marble fires is being managed to accomplish resource objectives. The complex is 10 miles north of Grand Canyon Village, AZ in mixed conifer, ponderosa pine, aspen and dead and down fuel. Moderate intensity fire activity with occasional torching was observed.

FLORIDA, Coronado National Forest. This fire is 36 miles south of Tuscon, AZ in mixed conifer with heavy ground fuels. A Type 2 Incident Management Team (Raley) is assigned. Short uphill runs with torching and spotting were reported.

EMPIRE, Safford Field Office, Bureau of Land Management. This fire is 40 miles northwest of Sierra Vista, AZ in tall grass. One structure is threatened. The fire was wind-driven to the east. Burn out operations were successful.

OSHA PARK, Carson National Forest. This fire is 10 miles east of Taos, NM in timber litter and understory. The Rio Chiquito watershed, wildlife habitat and archeological sites are threatened. Forest Road 437 remains closed. Isolated torching, creeping and short-range spotting were reported. Crews made good progress containing several spot fires.

AGRO, Arizona State. This fire is five miles south of Aguila, AZ in brush and grass. Highway 60 was closed for two hours. No further information was received.

### ROCKY MOUNTAIN AREA INCIDENTS / LARGE FIRES:

MASON, Pike San Isabel National Forest and Grasslands. A Type 2 Incident Management Team (Mullenix) is assigned. This fire is two miles south of Wetmore, CO in timber and heavy brush. The Greenwood Village subdivision has been evacuated. Structure protection is in place. High winds associated with thunderstorms caused significant crown runs in mixed conifer and heavy brush.

RIO BLANCO, San Juan National Forest. A Fire Use Management Team (Hahnenberg) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 10 miles southeast of Pagosa Springs, CO in timber with oak understory. A historic structure remains threatened. Short runs, spotting, active flanking and backing fire were reported.

PACK TRAIL, White River Field Office, Bureau of Land Management. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is burning 10 miles west of Meeker, CO in timber litter, brush and hardwood slash. Independent crown runs, 100 foot flame lengths and spotting up to a quarter mile ahead of the fire were reported.

ORC = Orange County Fire Department      FKU = Fresno-Kings Unit, California Department of Forestry and Fire Protection  
 TUU = Tulare Unit, California Department of Forestry and Fire Protection

### SOUTHERN AREA INCIDENTS / LARGE FIRES:

HURRICANE DENNIS PREPAREDNESS, Federal Emergency Management Agency. Two Type 1 Incident Management Teams (Quesinberry and Custer) are staged in Homestead and Tallahassee, FL. A staging area for relief supplies is being established at the North Florida Fairgrounds in Tallahassee. A third Type 1 Incident Management Team (Feser) has been ordered and will stage at Maxwell Air Force Base, AL.

THREE POINTS, Texas Forest Service. This fire started on private land 20 miles northwest of Ft. Davis, TX in pinyon, juniper and grass. Smoke remains a problem at the University of Texas McDonald Observatory. The Texas Army National Guard is supporting suppression operations. Crews conducted successful burn-out operations. Air support assisted in securing firelines.

CHINATI, Texas Forest Service. This fire started on private land 35 miles southwest of Marfa, TX in grass and juniper. Progress is being made towards containment. No active fire was observed.

### ALASKA AREA INCIDENTS / LARGE FIRES:

KING COUNTY CREEK, Kenai-Kodiak Area Forestry, State of Alaska. A Type 2 Incident Management Team (Doty) is assigned. This fire started on Fish and Wildlife Service land 13 miles southeast of Sterling, AK in black spruce, mixed hardwoods and dead and down beetle killed spruce. Minimal fire activity was reported.

CHAPMAN CREEK, Alaska Fire Service, Northern Field Office. This fire is eight miles south of Coldfoot, AK in black spruce and tundra. Torching and running were reported on the south side of the fire early in the day. Otherwise fire activity was minimal.

SHEENJEK RIVER, Alaska Fire Service, Upper Yukon Zone. This fire started on Fish and Wildlife Service land six miles northeast of Ft. Yukon, AK in birch, aspen, black and white spruce. Interior islands continue to burn out. Smoldering and creeping were reported in the northern portion.

## OUTLOOK:

**Weather Discussion:** A cold front moving through the Pacific Northwest and Idaho will bring gusty winds to portions of the Great Basin. A low pressure trough over Alaska will continue to produce scattered showers for much of the state.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<b>Southwest</b> Mostly sunny, hot, very dry and breezy Arizona and western New Mexico. Partly cloudy with isolated thunderstorms eastern New Mexico and west Texas. Widely scattered dry thunderstorms western New Mexico and eastern Arizona.	Mountains: 70 to 90. Lower elevations: 90 to 110.	Arizona eastward to New Mexico central mountains: 3 to 15%. Eastern New Mexico and west Texas: 15 to 40%.	West to southwest 10 to 20 mph with gusts to 25 mph in Arizona and far western New Mexico. South to southeast 10 to 20 mph eastern half of New Mexico and west Texas.
<b>Western Great Basin</b> Increasing clouds from the northwest with a slight chance of showers near the Oregon border. Sunny in the south and east.	North Valleys: 73 to 90. South Valleys: 90 to 112. Mountains: 74 to 94.	North Valleys: 17 to 25%. South Valleys: 5 to 10%. Mountains: 10 to 33%.	North: southwest 10 to 20 mph with gusts to 35 mph. South: 5 to 10 mph with afternoon gusts near 20 mph.
<b>Southern California</b> Areas of morning low clouds and fog into the coastal valleys, otherwise mostly sunny.	Mountains: 70 to 85. Valleys: 80 to 90. Upper deserts: 90 to 100. Lower deserts: 100 to 110.	20 to 40%.	Southwest to northwest 10 to 20 mph.
<b>Alaska</b> Partly to mostly cloudy with scattered showers and isolated thunderstorms, mainly in the afternoon and evening.	60's to mid-70's.	30% or higher.	Variable 5 to 15 mph, mostly southwest to west.
<b>Eastern Great Basin</b> Partly cloudy with widely scattered to scattered thunderstorms western Idaho. Mostly sunny elsewhere.	Idaho, Bridger-Teton: Mountains: 68 to 78. Valleys: 75 to 88. Northern Utah: Mountains: 75 to 85. Valleys: 88 to 100. Southern Utah and Arizona Strip: Mountains: 73 to 85. Valleys: 90 to 105. Southwest Utah and Arizona Strip: 100 to 112.	Idaho, Bridger-Teton: Mountains: 25 to 40%. Valleys: 18 to 28%. Northern Utah: Mountains: 12 to 22%. Valleys: 4 to 15%. Southern Utah and Arizona Strip: Mountains: 9 to 12%. Valleys: 3 to 10%.	Idaho, Bridger-Teton: West to southwest 8 to 15 mph. Northern Utah: South 10 to 15 mph west of Wasatch range, upslope/upvalley 3 to 6 mph east of Wasatch range. Southern Utah, Arizona Strip: South to southwest 10 to 15 mph.
<b>Northern California</b> Partly cloudy with a chance of light showers in the far north.	Coastal areas: 60's and 70's. Inland: Upper 70's to near 90.	Inland: 20 to 40%. Along the coast: 65% plus.	Southwest to west 6 to 15 mph. Southwest to west 8 to 18 with gusts 22 to 32 mph east of the Cascade/Sierra Nevada crest

### **Dozer/Tractor Plow Operations**

Dozers/tractor plows provide suppression and support capability for fire operations. When working on or around dozers on the fireline, it is important to respect the following guidelines:

- Load/unload equipment from the transport in a safe manner on a level, stable surface.
- Park transport in an area free of fuel. Clear an area if needed to protect parked equipment.
- Do not sit or bed down near equipment. Walk around the equipment before starting or moving it.
- Lower the dozer blade and/or fire plow to the ground when the equipment is idling or stopped.
- When working a dozer or tractor plow, stay at least 100 feet in front or 50 feet behind the equipment.
- Allow no one but the operator to ride on the equipment.
- Never get on or off equipment while it is moving.
- Provide front and rear lights for equipment working at night or in heavy smoke.
- Provide lights and fluorescent vests to personnel working with dozer/tractor plow units.
- Use hand signals for direction and safety. (See Fireline Handbook, Appendix A, for hand signals.)
- Do not use a dozer or tractor plow without a canopy or brush guard and radio communications.
- Operators will wear required PPE and carry a fire shelter.
- Be aware of different fuel types, rates of spread, and flammability.
- Watch for wetlands, steep slopes, rocks, ditches, and other obstacles that might stop the equipment.
- Do not get too far ahead of a firing crew during firing operations.
- Anchor the line to a secure firebreak and create a black line (burn out) until the fire is completely enclosed.
- Tractor plow operators should wear headgear protection for head, face, eyes, and ears while also providing radio reception and ventilation capabilities.
- Tractor plow crews should consist of a minimum of two people.
- When the dozer or tractor plow is equipped with a hand-clutch lever, always take equipment out of gear when mounting and dismounting.
